

San Francisco: Sept 2018

Accelerero Biostructures, Inc., today announced the move and expansion of their services to meet the needs of their growing customer base. The company has recently relocated to a larger facility and been accepted into the MBC BioLabs community after a competitive evaluation. MBS Biolabs is a community of scientists and innovators and provides operational and facility support to growing bio focused companies.

Accelerero Biostructures also joined the California Life Science Association – a non-profit association representing California’s life sciences industry. CLSA aims to advances California’s world-leading life sciences innovation ecosystem by advocating for effective national, state and local public policies and supporting entrepreneurs and life sciences businesses.
